I have stated my reasons to Bishop Greer. It is my own affair." At Bishop Greer's office it was said

esterday that any information as to Dr. ainsford's deposition must come from Rainsford himself

Dr. Rainsford said a few weeks ago in a ever of congratulation to the Rev. Carl Relland of Yonkers, who had just accepted the rectorship of St. George's upon the esignation of the Rev. Hugh Birckhead: For myself, I have after long conon come to the determination to aquish the ministry, and at my request ishop of New York has taken the mical action necessary in the premises have taken this step with deep regret but for some time I have felt a growing assurance that what time and opportunity hav yet be spared to me I can most effectively employ as a layman.

Roosevelt and two other white ones from the Congo, but the dark species is not represented in its collection. The money for the expedition has been supplied by an anonymous donor. Dr. Rainsford was in Cairo when in 1906 he resigned the rastorate of St. George's. He had gone broad after a nervous breakdown and although he had found that travelling mproved his health he had definitely decided that he could not resume the work of the church with which he had abored for twenty-four years. He said that time in a letter to J. P. Morgan, ·nior warden of St. George's:

I am better now than I was a year ago. it I have definitely concluded that I ave not strength enough to continue a rectorship no crippled man could r St. George's what its head should You know better than any one in all my parish, probably, what it costs me write this to sever the bonds that have bound me for almost twenty-five years to you all is beyond words a bitter. task. The Rev Dr. William S. Rainsford, formerly rector of St. George's Church, more recently hunter of big game in Africa, has relinquished the ministry. At his own request he was deposed with due ceremony by Bishop Greer early this month. His reasons for becoming a layman have not been made public. At his home in Ridgefield, Conn., yesterday, I'r Rainsford said he did not care to add anything to this.

At the meeting yesterday a committee consisting of Dean Grosvenor, Eishop Greer, Dr. Slattery and Messrs. Miller, Roosevelt and Gary was named to select sites on the Cathedral grounds for the Bishop's house and the dean's house and to consult landscape artists in so doing. It was announced that Mrs. R. T. Auchmuty has given \$25,000 toward the endowment fund. Mrs. Auchmuty is a member of Grace parish.

A committee was also named to raise funds and devise plans for so doing for the crection of the cathedral have. The amount needed is at least \$1,00,000 and it has been proposed that sums of \$500 ench be asked, each sum to do a certain thing, or build a particular part. The belief is expressed by Bishop Greer that the entire \$1,000,000 can readily be secured in this manner. He feels that it is needless for the cathedral to be a generation or two in building.

The trustees also changed the cathedral

the cathedral to be a generation or two in building.

The trustees also changed the cathedral into an open corporation. It has heretofore been a closed one. The whole laws governing it, as left by Bishop Potter and Dr. Huntinaton, have now been changed and the new constitution was formally approved yesterday. To make it legal it must be approved three months hence and then it will be free for the next convention of the New York diocese to act.

All Episcopal affairs in New York are managed by a convention that meets each year. The cathedral has heretofore been an exception. According to the new lay adopted yesterday one clerayman and two laymen will be elected by the convention each year to serve for terms of six years. In this way the cathedral will come to be an open corporation in the course of a few years and controlled, as it has not been, by the Episcopal Church in New York.
